Treatment background = cbt + sertraline + usual care
Chen Y 2022
−1.19 [−1.52; −0.85]
Treatment background = citalopram + usual care
Zhu 2022
−1.00 [−1.41; −0.58]
Treatment background = cognitive training + sertraline + usual care
Li YM 2022
−0.91 [−1.66; −0.15]
Mo 2019
−0.67 [−1.31; −0.04]
Wang Z 2023
−0.91 [−1.66; −0.15]
Random effects model
−0.81 [−1.22; −0.40]
Heterogeneity: I^2 = 0%, τ^2 = 0, p = 0.8612
Treatment background = cognitive training + usual care
Li 2025
−0.82 [−1.59; −0.05]
Treatment background = escitalopram + usual care
Chen 2020
−0.63 [−1.14; −0.13]
Shi 2022
−0.49 [−0.85; −0.12]
Random effects model
−0.54 [−0.83; −0.24]
Heterogeneity: I^2 = 0%, τ^2 = 0, p = 0.6403
Treatment background = fluoxetine + usual care
Li X 2004
−0.42 [−1.05; 0.20]
Sun 2022
−1.10 [−1.67; −0.53]
Random effects model
−0.77 [−1.44; −0.11]
Heterogeneity: I^2 = 59.6%, τ^2 = 0.137, p = 0.1157
Treatment background = mindfulness
Duan 2023
−0.13 [−0.71; 0.44]
Treatment background = paroxetine
Xu 2024
−1.23 [−1.85; −0.62]
Treatment background = paroxetine + usual care
Jiang LL 2021
−1.91 [−2.59; −1.23]
Treatment background = sertraline
Terachinda 2021
−0.54 [−1.88; 0.80]
Treatment background = sertraline + usual care
Hu 2020
−1.83 [−2.57; −1.09]
Li K 2024
−0.91 [−1.66; −0.15]
Yang 2018
−1.64 [−2.14; −1.13]
Random effects model
−1.49 [−1.97; −1.00]
Heterogeneity: I^2 = 41.7%, τ^2 = 0.073, p = 0.1798
Treatment background = usual care
Gu 2017
−5.63 [−7.41; −3.85]
He FJ 2023
−0.59 [−1.10; −0.07]
Sasaki 2017
−0.30 [−1.39; 0.80]
Shan 2025
−0.81 [−1.55; −0.06]
Random effects model
−1.73 [−4.08; 0.62]
Heterogeneity: I^2 = 89.9%, τ^2 = 5.436, p < 0.0001
